

**Data Analyst****Employer:** Kelly Services**Title:** Data Analyst

**Description:** Kelly IT Resources is looking for candidates to work on a 6 month contract in the Holland area. These positions will require candidates to be available 40 hours per week during the last 2 weeks of December. Then after the holidays, candidates will need to be available on a part time bases until July 2012. Kelly IT Resources is among the largest and most respected technology recruitment firms in the country.

The first set of candidates will be doing regression analysis to help our client construct the formulas that they need to get loaded into their system. Qualified Individuals will need a heavy math background (preferably math, electrical or mechanical engineering, physics and/or statistics since they will be analyzing data sets).

The second set of candidates will utilize these formulas and enter them into our clients system. It is preferable to have individuals with good analytical skills and/or software programming experience.
