Dotted lines represented recommended sequences. Shaded courses are highly recommended for students new to the Integrated Science major.

Elementary Teaching Minor

The minor is undergoing modifications that will result in some courses becoming unavailable. For instance, in the fall of 2009 the fine arts courses (ART 230 and MUS 350) will be replaced by MAT 300. If you have already completed a course in a particular area (e.g., ART 230 in fine arts) then you have completed that requirement and do not need to take the new course. It is recommended to start by looking for the new course and if it is not available yet, move to the previously offered courses that fulfill that section.

School of Education Professional Program Requirements (changes)

In Winter 2010 the College of Education will begin implementing a new professional program. The current program will be available until December 2012. If you have taken most of the courses from the current program, you may choose to continue in it but you **MUST** complete it before Winter 2013. We strongly advise students to follow the new program; if you have taken one or more courses from the current program, you can substitute them for courses in the new program.
