

DIVISION 14 - CONVEYING EQUIPMENT

14 20 00 ELEVATORS

1. Rock clauses are to be specifically prohibited in the Project Manual. Elevator sub-contractor's bid must be based on conditions as defined in soil boring reports included in project manual.
2. Where card access is used, Elevator sub-contractor's bid shall include all necessary wiring and other elevator components to coordinate with installation of card access.
3. Phone lines will be provided to equipment by GVSU IT. Provided phone line will ring down automatically to a GVSU #. Do not program car phone to dial. Contact GVSU operator @ 616-331-5000 for line installation.
4. Elevator sprinkler control valve box shall be prepped for and furnished with a BEST 1E74 cylinder. (Also see Section 08 31 13)

14 24 00 HYDRAULIC ELEVATORS

1. Hydraulic elevators, when used in housing facilities, shall be specified with oil cooler. Elevator needs to handle maximum load during student move-in and move-out without shut downs due to oil overheating.
