

Are you graduating in May or August 2024?

Join the inaugural cohort of the Laker Accelerated Talent Link!

The Talent Link is an innovative partnership between GVSU and some leading West Michigan companies, including:

- Amway
- Acrisure
- Michigan Software Labs
- Cascade Engineering
- Corewell Health
- GVSU Information Technology

Committed to solving the talent needs of West Michigan, the Talent Link program is for students in their senior year. It connects them to these employer partners to build a strong connection throughout their senior year. As part of the Talent Link, you will...

- Receive an employer-sponsored scholarship of up to \$15,000;
- Layer one of four certificates such as Project Management, Applied Data Analytics and others, on top of your degree (4-6 classes, individually decided by our employer partners);
- Participate in a co-curricular cohort experience that builds your network of support and connection to your employee partner;
- See the wide and varied opportunities available to you as a liberal arts and sciences student;
- Participate in a market-rate paid internship (optional for credit) at the employer partner for up to 20 hours per week; and
- If the program is completed, receive a good-faith job offer from the employer partner after graduation.

Twenty-five (25) students will be selected by the end of April 2023 to be a part of the first cohort during the 2023-2024 academic year. Particular focus is given to students from the College of Liberal Arts and Sciences and Brooks College of Interdisciplinary Studies. Adult learners from the LEADS program are also encouraged to apply. **Talk with your advisor, or email LATL@gvsu.edu with questions or for more information.**

Sign up to be the first to know when applications are live at www.gvsu.edu/latl/nextsteps or scan the QR code here.
