Self-Service Maintenance Guidelines

Please sign in before beginning any work & sign out when you leave.

The Bike Shop makes available its tools and space to members of the GVSU community on a first-come, first served, as-available basis for maintenance and upkeep of personal bicycles. Feel free to ask about the location of our tools and what each is used for.

Bike Shop tools may not leave the bike shop premises. Please return all tools to their proper place when finished with them.

Bike Shop parts, both new and used, are for fleet bikes only. Self-service users must provide their own parts. Bike Shop staff are happy to recommend a nearby retail shop if needed.

Bikes may not be left in the Bike Shop overnight. Please secure all bikes to the nearest available bike rack when done working for the day.

Bike shop staff & volunteers are eager to make maintenance suggestions regarding your bike and offer advice on how to perform repairs that fall within their training and ability level but are not allowed to perform any work without a signed service agreement.

The Bike Shop is not an authorized dealer, distributor, or service center for any brand. Performing certain work may void manufacturer warranties for parts & services. Please consult your owner’s manual or dealer before working on your bike.

The Bike Shop is managed by the GVSU Outdoor Adventure Center. Please visit our website to find out more about our other programs, services, and events.
