Summary of Activities:

Over the course of the 2013-2014 academic year, the Brooks College Curriculum Committee met approximately each two weeks. When we first convened in the Fall semester, we were under a tight deadline to approve the new General Education Issues courses. These courses were undergoing simultaneous review with Gen Ed.

For 2013/14 we reviewed and eventually approved approximately 24 courses. Included in these approvals were:

2 sets of 4-course Honors Sequences (Focus on Asia and History of Science)
General Education Issues Courses
Sustainable Food Certificate (this was sent back for amendments by the UCC)
Leadership Emphasis
New 1-Credit courses for Brooks (IDS 180's courses)
