## Office of Research Compliance & Integrity News

The Office of Research Compliance and Integrity (ORCI) is transitioning to a new electronic management system. IRBManager will be released university-wide on **September 25, 2017**. This new system will serve as the "front door" for the submission, tracking, and retention of research compliance documents. This will initially include Human Research Review Committee (HRRC) and Institutional Animal Care and Use Committee (IACUC) application forms, as well as the GVSU Investigator Conflict of Interest (COI) Disclosure and Certification Form. Other forms may be added at a later date.

A link to access IRBManager will be made available on the [ORCI website](#) beginning on September 25<sup>th</sup>. IRBNet will no longer be functional as of September 25<sup>th</sup>, and active protocols currently housed in IRBNet will be transferred to IRBManager by the ORCI.

The ORCI will host a number of training sessions to help users become familiar with IRBManager. Please visit [Sprout](#) to register for a session if interested. Additional informational documents and tutorials will be made available on our website prior to the release date. Departmental training is also available upon request (contact [rci@gvsu.edu](mailto:rci@gvsu.edu)).

**Consider signing up for a training session!**
