*The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

¹If you plan to attend graduate or professional school you will want to complete the CHM 241/242 sequence.

²Choose one of the following to complete the math cognate for the major: MTH 125: Survey of Calculus, MTH 201: Calculus, or STA 215: Introductory Applied Statistics.

³MTH 122/123 are prerequisites for PHY 220 and are not part of the Biology major. If a student chooses to take PHY 200, MTH 123 does not need to be completed. PHY 221 is not required but students planning to attend graduate school, professional school, or to pursue secondary teacher certification should complete the PHY 220/221 sequence. **To take the Math Proficiency Tests for MTH 122 and/or 123 online, visit this link:** gvsu.edu/s/mv

⁴Students must choose at least one animal biology course as an elective. See reverse for animal biology electives.

⁵Students must complete a total of two courses with an SWS attribute

⁶ Elective refers to any course that will help you earn the required 120 credits to graduate. The following courses may be of interest when selecting the Plant Biology Emphasis: BIO 323 Aquatic Plants, BIO 413 Freshwater Algae, BIO 423 Plant Biotechnology, BIO 573 Plants of the Great Lakes Region (with permission).

Declaring the Biology-Plant Major:

1. In myBanner, select “Student” > “Student Records” > “Change Major” > “Change Major 1/Program”
2. Choose “Biology-BA or Biology-BS Plant” from the drop-down box.
3. Click “Submit” and then “Change to New Program”

General Education Categories fulfilled by the Biology major:
Life Science and Physical Science: BIO 120 and CHM 115 (both fulfill lab requirement)
Mathematical Sciences: STA 215, MTH 122, MTH 123, MTH 201
