\* The block tuition rate is 12-15 credits. You will pay additional tuition for any credits over 15. You MUST obtain at least 120 credits total.

<sup>1</sup> Students who self-place into WRT120 should take this course in the fall semester and then take WRT 130 in the winter semester of the first year. Geography students who self-place into WRT 150 can take this course in either semester. A grade of C or higher is required to fulfill these requirements.

Students will not need to take WRT 150 (or 120 & 130) if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required.

<sup>2</sup> Students must complete a total of two courses with an SWS attribute. GPY 495 regularly has the SWS attribute.

<sup>3</sup> Geography students have the option of a Bachelor of Science (BS) or Bachelor of Arts (BA) degree. The BS degree requirements are STA 215, GPY 307, and one of the following: GPY 407, GPY 410, GPY/ENS 412, or GPY 470. The BA degree requirements are three semesters of a foreign language (Lang 101, Lang 102, Lang 201). BA students are strongly encouraged to take GIS courses for skills.

<sup>4</sup> See reverse for options.

<sup>5</sup> Geography students can choose GPY 495 or GPY 496 for their capstone route—GPY 496 is typically a study abroad and is NOT an SWS course.

Students who started at GVSU prior to Fall 2017 and would like to pursue one of the Geography Emphasis areas (such as this one) will need to speak with Records Office (150 STU) to update their catalog year. **It is VERY important that you speak with your advisor in the CLAS Academic Advising Center first to be sure that updating your catalog year will not have a negative impact on your academic plan.**

There are also optional certificates in *Sustainable Urban and Regional Planning (SURP)*, *Geographic Information Science and Technology (GIS&T)*, and *Environmental Remote Sensing (ERS)* that students may elect to pursue in addition to their respective major. Minors are also available in *Sustainable Urban and Regional Planning* and *Geospatial Technology* are available for all majors.
