Michigan Commission on Law Enforcement Standards

CANDIDATE'S PERSONAL HISTORY STATEMENT AND AFFIDAVIT

(Rev. 04/18)

Instructions to the Applicant:

The Michigan Commission on Law Enforcement Standards (MCOLES) requires that all candidates seeking eligibility for law enforcement licensing comply with the Commission's minimum selection and employment standards. Candidates must meet these standards at the time of entrance into the basic training program, when applying for the Recognition of Prior Training and Experience (RPTE), or at the time of employment. Candidate must maintain compliance with such requirements throughout the training period and at the time of initial licensing or re-licensing through reciprocity.

One of the selection requirements involves "good moral character." The state of Michigan Administrative Code (Rule 28.14203(e)) requires that candidates must "Possess good moral character as determined by a favorable comprehensive background investigation covering school and employment records, home environment, and personal traits and integrity. Consideration will be given to a history of, and circumstances pertaining to, having been a respondent to a restraining or personal protection order. Consideration shall also be given to all law violations, including traffic and conservation law convictions as indicating a lack of good character."

The information you provide in this personal history statement will be used in evaluating your background and will assist staff in determining your suitability for the position of law enforcement officer. The information you provide in this document will subsequently be discussed with you and you will be required to file an affidavit in support of the information provided.

Please fill out the questionnaire completely and accurately. Return the completed personal history statement with your application to your academy director, agency, or MCOLES representative. When completing the personal history statement, please keep in mind that:

- (1) The completion of this form is mandatory;
- (2) All statements are subject to verification; and,
- (3) Deliberately making false statements, committing fraud, or failing to disclose requested information are grounds for denying your enrollment into or dismissing you from the training program, including the Recognition of Prior Training and Experience program. Further sanctions by the Commission may be imposed including a two-year ineligibility from applying for enrollment in any training program, or permanently denying your application. Subsequent license revocation may also be imposed for making a material false statement or committing fraud in the application process. (R 28.14602 28.14609)

It is to your advantage to respond openly. Any negative factor in your background will be evaluated in terms of the circumstances and facts surrounding its occurrence, and its degree of relevance to the job of a law enforcement officer.

<u>NOTE:</u> Use extra sheets of paper, if necessary, to completely answer the questions on the attached pages.

Do not leave any question responses blank, or enter "N/A". If a question appears not to apply to you, contact the academy director/background investigator who will make a determination if your lack of response or applicability is appropriate.

PLEASE PRINT IN INK OR TYPE YOUR RESPONSES TO THIS OUESTIONNAIRE.

PHYSICIAN'S STATEMENT OF APPLICANT'S MEDICAL CONDITION

The State of Michigan has mandated that an applicant for law enforcement officer licensing must meet the minimum employment standards published by the Michigan Commission on Law Enforcement Standards (MCOLES). The medical standards are administrative law published in the Michigan Administrative Code of 1979, as amended. Rule 28.14204 requires that applicant must:

Possess adequate hearing, normal color vision and normal visual functions and acuity in each eye (corrected to 20/20). Be free from any physical defects, chronic diseases, organic or functional conditions, or mental or emotional instabilities⁺ which may tend to impair the efficient performance of a law enforcement officer's duties or which may endanger the lives of others or the law enforcement officer.

The administrative law requires that a law enforcement officer applicant be given a comprehensive physical examination by a licensed physician to determine both the applicant's compliance with the law and his or her fitness for performance of the job requirements of a law enforcement officer. The Essential Job Functions are listed on the following page. The law also requires the applicant to provide the physician with the applicant's declaration of medical history on the MCOLES Medical History Statement.

In order to satisfy the intent of the law, it is important that the physical examination includes the body systems to determine whether the applicant has a medical or physical condition that would tend to impair the applicant's efficient performance of a law enforcement officer's duties or which might endanger the lives of others or the law enforcement officer.

Your examination is to include:

Integumentary System Head, Larynx, Neck, Nose, Oral Cavity, Paranasal Sinuses, and Pharynx Chest Wall and Respiratory System Cardiovascular System Gastrointestinal System Musculoskeletal System Nervous System and Organs of Special Sense Endocrine and Metabolic System Hematopoietic System Other Medical Conditions

Questions related to the Commission's medical standards or the examination process should be addressed to the Michigan Commission on Law Enforcement Standards at 517-636-7864.

⁺**NOTE TO EMPLOYING AGENCIES**: Use of a licensed psychologist, in lieu of a physician, to assess the mental and emotional stability of applicants is left to the discretion of the employing agency. If the assessment is done by a licensed psychologist, the psychologist must sign in the appropriate area of **Section D**.

Essential Job Functions of a Law Enforcement Officer

- 1. Affect an arrest, forcibly if necessary, using handcuffs and other restraints.
- 2. Climb over obstacles; climb through openings; jump down from elevated surfaces; jump over obstacles, ditches and streams; and crawl in confined areas to pursue, search, investigate and/or rescue.

- 6. Load, aim, and fire handguns, shotguns, and other agency-specific firearms from a variety of body positions in situations that justify the use of deadly force while maintaining emotional control under extreme stress.
- 7. Conduct searches of buildings and large outdoor areas that may involve walking and/or standing for long periods of time.
- 8. Exercise independent judgment within legal guidelines, to determine when there is reasonable suspicion to detain, when probable cause exists to search and arrest and when force may be used and to what degree.
- 9. Gather information in criminal investigations by interviewing and obtaining the statements of victims, witnesses, suspects and confidential informants.
- 10. Identify wanted persons and vehicles; and, locate stolen property and identify potential evidence, which requires the ability to distinguish color and perceive shapes.
- 11. Manage interpersonal conflicts to maintain order.
- 12. Enter and exit vehicles quickly to perform rescue operations, pursue a suspect or answer an emergency call.

- 17. Pursue fleeing suspects on foot both day and night in unfamiliar terrain.
- 18. Read and comprehend rules, regulations, policies, procedures and the law for purposes of ensuring appropriate officer behavior/response and performing enforcement activities involving the public.
- 19. Subdue resisting subjects using hands and feet while employing subject control maneuvers or approved nonlethal weapons.
- 20. Use body force to gain entrance through barriers to search, seize, investigate and/or rescue.
- 21. Perform other essential tasks as identified by the employing agency and/or the Michigan Commission on Law Enforcement Standards job-task analysis.

Hearing Standard Instructions

Law enforcement officer candidates shall pass Unaided Criteria I, <u>or</u> Unaided Criteria II, <u>or</u> the Aided Criteria. For Unaided Criteria I and II, all testing is to be done on each ear unaided. The Aided Criteria involves testing with one or both ears aided.

Throughout the standard, the intensity of auditory stimuli shall be expressed in decibels relative to normal hearing levels as defined by the American National Standards Institute S3.6-1989. The testing for Unaided Criteria I shall be performed by: (1) an audiologist at a hearing clinic accredited by the Professional Services Board of the American Speech-Language-Hearing Association; \underline{or} (2) an audiologist who has a Certificate of Clinical Competence; \underline{or} (3) an Occupational Hearing Conservationist (OHC) who is certified by the Council for Accreditation of Occupational Hearing Conservationists \underline{or} (4) a Hearing Care Practitioner certified by the National Board for Certification in Hearing Instrument Science (NBC-HIS).

Testing for Unaided Criteria II and Aided Criteria shall **only** be performed by an audiologist who meets the aforementioned professional criteria [see (1) and (2) above].

UNAIDED CRITERIA I:

Pure tone air conduction sensitivity thresholds for each ear, as shown on the pure tone audiogram shall not exceed a hearing level of 25 decibels at any of the following frequencies: 500, 1000, 2000, 3000, and 45 decibels at 4000 Hertz.

UNAIDED CRITERIA II: (a + b + c)

- a. A four frequency average pure tone sensitivity threshold for each ear, as derived from the pure tone air conduction audiogram at 500, 1000, 2000, and 3000 Hertz shall not exceed a hearing level of 25 decibels with the hearing threshold level at no single frequency poorer than 35 decibels.
- b. Speech recognition scores measured under audiometric earphones shall be 90 percent or better in each ear at 50 decibels in quiet, using full lists of recorded phonetically balanced words, which are age appropriate.
- c. The speech recognition score for both ears measured at the same time in an audiometric sound field shall be 70 percent or better at a +5 decibel signal-to-noise ratio. For this measurement, speech stimuli and competing speech noise shall be presented through the same loudspeaker, or two loudspeakers stacked vertically, at zero degree azimuth. Speech stimuli shall be presented at 50 decibels, using a full list of recorded phonetically balanced words, which are age appropriate.

AIDED CRITERIA: (a + b + c)

- a. Average aided hearing levels, as derived from sound field measures for the frequencies 500, 1000, 2000, and 3000 Hertz in each ear, shall not exceed a hearing level of 25 decibels, with no single frequency poorer than 35 decibels. Measurements shall be made monaurally in an audiometric sound field with the unaided (nontest) ear plugged, or when necessary, effectively masked. Test signals shall consist of either frequency-specific modulated tones or narrow band noise, presented through a loudspeaker at zero degree azimuth, and results shall be expressed as aided hearing levels.
- Aided speech recognition scores shall be 90 percent or better in each ear. Testing shall be administered at 50 decibels in quiet, using full lists of recorded phonetically balanced words, which are age appropriate. Measurements shall be made monaurally in an audiometric sound field with the loudspeaker at zero degree azimuth and the unaided (non-test) ear plugged or, when necessary, effectively masked.
- c. The aided speech recognition score for both ears, measured at the same time in the audiometric sound field, shall be 70 percent or better at a +5 decibel signal-to-noise ratio. For this measurement, either one or both ears shall be fitted with a hearing aid, and in the case where only one ear has been fitted with a hearing aid, the unaided ear shall not be plugged or masked. For this measurement, speech stimuli and competing speech noise shall be presented through the same loudspeaker, or two loudspeakers stacked vertically at zero degree azimuth. Speech stimuli shall be presented at 50 decibels using a full list of recorded phonetically balanced words, which are age appropriate.
