New Business

- Expediting review of curriculum proposals
Action: 1) comments were made on the spreadsheet provided. Most comments were in favor of expediting and a having some areas be only notified rather than having approve proposals that are not relevant to their approval;
2) overwhelming comments for further ways to enhance and streamline the process of curriculum revision concerned a 'smart' or 'logic' driven form that will adjust itself based on what it is you desire to do; only having questions relevant to the action appear for the author.
