Report from the Chair:

1. Russian Studies is being dropped as a program and the proposers are asking if UCC feels they need to come to present dropping the program. Consensus of the Committee was that if a visit was needed, UCC would inform the faculty after review of the proposal;
2. There has been 1 response to the cognate question from the College of Education- hopefully more will come in the next week or so
3. Updated language for catalog concerning language for grade types was reviewed- some descriptions are more appropriate for the Faculty Handbook and not the catalogue and are represented in the revisions.

Report from the Provost: none

Old Business

- 8485 EGR 362 NCP
Action: approved

New Business

- BS core requirement interpretation
Action: UCC is not opposed to the concept as proposed (accepting an alteration to the definition as to what courses qualify for the B.S. course sequence in any major-lacking a general education Math foundations class), but the lack of opposition is not a guarantee that any forthcoming proposal would be approved *a priori*.
- 8058 Masters of Public Health NPP
Action: Any action taken is being done with the understanding that this entire program was “supported by UCC on 4/17/13” as were many of the courses being reviewed in this curricular package. Amendments will, in the case of the program proposal, be requests to the proposers to alter the program catalog copy and other materials that, in the view of UCC, will make the program stronger. It is apparent that the approval of the program occurred prior to the final approval of the courses. The Catalog copy supplied as an attachment to this proposal will serve as the basis from which to make changes (added to Sail on 9/14).
