Report from the Chair: 1) There is a new undergraduate major that combines CSAT along with an early childhood endorsement from the state (from new program committee); 2) From History (Group social studies and BS in History) BS cognates are being worked on at the college level.

Report from the Provost: Request to allow the Program Change Request: Master of Education in General Education with an Emphasis in Advanced Content Specialization-Chemistry (log #6383) to be extended for an additional year from that initially agreed upon when the program was approved-there was no objection to the extension request made by the Chemistry Dept. as conveyed to UCC by M. Cimitile

New Business

- Credit hour definition (UCC Charge 2)
Action: no action taken-draft need revision
Amendment: UCC needs to explain the rationale for how the credit hour definition was developed and prepare a document. UCC Chair will work with M. Cimitile on drafting such document. Otherwise, seems as if the credit hours definition is in pretty good shape.
