Studying abroad is a once-in-a-lifetime opportunity to discover a foreign country for a summer, a semester, or an academic year! Learn cross-cultural skills, gain a global perspective, and prepare yourself for the challenges of conducting business around the world.

Human resources managers work with foreign nationals at a firm’s subsidiary abroad and with employees with international assignments. Production specialists arrange production of goods in other countries and locate foreign producers.

Popular study abroad options for Human Resources Management majors are:
- Kingston University, England
- Macquarie University, Australia
- ESSCA University, France
- University of Deusto, Spain
- John Cabot University, Italy
- University of Debrecen, Hungary
- Cracow University of Economics, Poland

Business, nonprofit, government, and union organizations all need specialists who are trained to respond to employee concerns, administer labor and employment laws, and design policies dealing with diversity and equal opportunity, recruiting and selection, training, performance appraisal, compensation, benefits, discipline, and labor negotiations.

A Bachelor of Business Administration in Human Resources emphasizes the management of relationships between employers and their employees. The program uses cutting-edge concepts, local case studies, real company projects, job shadowing, internships, and company visits to prepare students for leadership roles.

### Recommendations from Faculty

- Join the **Society for Human Resources Management (SHRM)**. The purpose of the SHRM is to aid its members in becoming more effective in the field through group projects and activities, publications, speakers, and employment assistance.
- Become familiar with the Seidman Human Resources Advisory Board:
