Each student space will be provided with a set of furniture consisting of the below components, including all hardware required for assembly and lofting.

- Single Bed Frame
- Desk w/ Pedestal, Computer Keyboard/Pencil Drawer
- Desk Top Organizer
- Chest of Drawers
- Floor or Stacking Bookcase
- Ladder (Optional)
- Wardrobe

The students are able to create their own environment in several ways with the furniture provided. Components are freestanding or can be stacked with locking pins for use in assembling all of the following configurations:

- A loft configuration
  - Bunk beds with free standing or stacked furniture
  - Twin beds on the floor with free standing or stacked furniture
  - Trundled beds (an upper bed at right angle to a lower bed) supported on one end by the return Headboard and at the opposite end by the bookcase or three drawer chest

All pieces are designed to nest or connect into one another without the need of separate tools. An exception is the Desk and Desk Top Organizer which can be semi-permanently fixed to one another. Steel dowel pins join headboards and foot boards of bunk beds and steel dowel pins position and secure the beds and various pieces of furniture to the beds or to each other. Each bed and/or each piece of furniture is engineered to support the dead load of three other components and the live load of two individuals.

Most of the current existing residence hall bedroom lofting furniture is The Brill Company’s LifeSpace product (not LifeSpace II) [www.brillcompany.com/lifespace.html](http://www.brillcompany.com/lifespace.html). We are looking for similar style and aesthetics.

Vendors should quote a natural maple finish on all components – vendors may propose one alternative finish and should note price difference.

Supplier must submit actual wood finish and color samples with bid proposal.

Supplier must submit colored illustrations/photos of proposed furniture. Please provide any other supporting documentation that will assist in the decision making process.

Supplier’s name and year of production must be permanently but discreetly marked on all pieces of furniture.

Exact quantities will not be known until December because GVSU will be transferring some existing furniture for use in Housing 2016. A minimum and maximum quantity is stated. Please indicate if and at what quantity price breaks would occur within that range.

Other options for adjusting platform/mattress height are acceptable. Ability to place dresser underneath mattress platform while allowing use of all drawers is preferred. Minimum warranty of 10 years on entire bed.
