Rationale for adding this course to the curriculum

Explain how this course will strengthen and improve the curriculum and/or how this course aligns with unit goals.

Which student population(s) is this course designed to serve? Explain how and where this course fits into the unit's existing curriculum.

For each prerequisite listed above, please give a detailed explanation for why they are necessary.
Identify any overlap between this course and courses offered by this unit as well as other programs or units.

Look for overlap in the online catalog by conducting a “courses - keyword/phrase match” search. Indicate the degree of overlap and explain why your students should take this course instead of the existing course(s). Contact unit heads with a request that comments be sent promptly to you. Units may enter their comments directly into the online system's "Comments" box for this proposal. Alternatively, copies of inter-departmental communication can be attached by the proposer as a “Supporting Document”.

Attention!
If this proposal is a part of a larger package of changes (e.g., program change request, new courses, or course changes), you must group all related proposals together in the online system to facilitate review.
