

UKRAINE

A GVSU FACULTY LED PROGRAM

ANTHROPOLOGY IN UKRAINE

SUMMER SEMESTER 2012
OPEN TO ALL MAJORS

TELL ME ABOUT THIS PROGRAM

The study abroad program in Ukraine is designed to educate students about the relationship between the environment and human beings. The courses will focus on how human activity has been shaped by the environment, as well as how humans have re-shaped the environment. Ukraine is a place where human and environmental interaction has experienced dramatic change several times throughout history, from the first farmers in the region to the 1986 tragedy at the Chernobyl nuclear power station. Courses in the program will highlight the crucial parameters of our interaction with nature, which shape both our biological and social development. The “Culture and Environment” course (part of the Man and Environment theme requirement) will be devoted to the study of human impacts, variability of experience in different environments, and environmental determinants of human cultures.
