		General Education: Global Perspectives	3
Total	12	Total	15
Semester Three - Fall		NOTE: Life Sciences, Social/Behavioral Sciences, Intermediate Algebra (MTH 110), and Writing (WRT 150) are often fulfilled through the associate degree. The exact layout of and required courses for the AHS-HPD depend entirely on the associate degree completed.	
AHS 495 Issues in Health Care Professions ^{SWS}	3		
General Education: Historical Perspective	3		
Issues Course	3		
Electives	4		
Total	13		

Admission & Application Information

The AHS major with Health Professional Degree Completion emphasis requires that 40 of the 120 credits be taken at GVSU. During the GVSU application process students will submit official transcripts from all colleges and universities attended. Upon acceptance to GVSU, the admissions office will provide a formal evaluation of credits for transfer. The academic advisor and student will use this information to build an academic plan outlining courses required for completion of the Allied Health Sciences – HPD emphasis, and General Education courses. The remaining credits applied toward the Bachelors of Science degree in Allied Health Sciences – HPD (up to 80 total) can come from the professional coursework successfully completed in the respective associate or associate of applied science health profession. Since each student's transcript will be different, depending on the school attended and the health profession pursued, the planning of required courses to earn the baccalaureate degree will be individually determined.

There is no admission deadline for the HPD emphasis. Enrollment will occur on a rolling basis over the academic year at the start of the next semester. The procedure for application requires the following:

- Application for admission and acceptance to GVSU with a minimum cumulative GPA of 2.5.
- Demonstrate transcript and professional documentation fulfilling the three criteria (see above).
 - Possess an earned Associate of Science or Associate of Applied Science from a school accredited by the Higher Learning Commission.
 - The Associate of Science or Associate of Applied Science must be in a health profession program requiring external accreditation by the professional body regulating that particular profession.
 - The health profession offers national voluntary credentialing or requires state licensing and the student either possesses or is eligible for earning that credential or license.
- Complete the AHS Health Professional Degree completion application form found at the Allied Health Sciences web site www.gvsu.edu/ahs

Up to 80 credits from the associate degree or the associate of applied science degree can apply toward earning the AHS bachelor's degree. If the associate degree being used in the transfer is less than 80 credits, the additional credits needed to meet the minimum **120 credits** for the bachelor's degree can be done at any university or community college. Of the minimum 120 credits, **40 must be earned from a university of which 30 credits must be completed at GVSU.** For additional information refer to www.gvsu.edu/ahs

The Allied Health Sciences (AHS) undergraduate major resides in the College of Health Professions (CHP)
