BEGINNING SPANISH FOR HEALTH PROFESSIONALS

SPA 180

Join us this winter semester for an engaging and practical course for non-Spanish speaking health care students! The course will focus on everyday communication with Spanish speakers and will prepare you to develop rapport, manage and control emergency situations, and engage in basic conversations with Spanish speakers. You'll focus on vocabulary, simple sentence structure, and conversational drills, while at the same time being guided through the assessment and treatment process in health care. This course will also include cultural sensitivity work and will cover various aspects of Hispanic cultures.

Winter 2021 Semester

Online - asynchronous

No prerequisite! For students with little or

basic knowledge of Spanish

For more information, contact | Sarah Matthews (matthesa@gvsu.edu)

New Course: Learning to See – ART 350

Visual Training for the Health Professional

Winter 2021 11-12:50 M W

Questions? Jill Eggers eggersj@gvsu.edu
