DISABILITY SUPPORT RESOURCES

Disability Support Resources (DSR) provides support services and accommodations that enhance the learning environment for students with documented disabilities. DSR promotes a broad definition of diversity that appreciates disability as an integral part of the academic experience.

DSR collaborates with students, faculty, and staff to promote equal access to the campus community that meets the needs of students with disabilities, fosters student independence, and recognizes students based on their abilities rather than their limitations. These practices help to identify innovative approaches and resources that support a

diverse range of abilities and opportunities while maintaining compliance with the Americans with Disabilities Act (ADA) of 1990. DSR encourages the university community to empower students, enhance equity, and provide a platform for innovation and inclusion.

Students should register with DSR as soon as possible after admission to the university to ensure the timely provision of accommodations. Advisors can also assist students with disabilities with questions regarding course selection, scheduling, and exploration of their areas of career interest. If a student requires more comprehensive services in these areas, advisors can refer students to other on-campus resources. Alternative format textbooks, alternative testing, assistive technology, learning skills assistance, and transportation on the Allendale Campus are some of the services available. DSR also strives to educate the campus community on disability issues to cultivate a more inclusive and equitable campus for the benefit of all.

If you feel that you can benefit from these resources, please call us at (616) 331-2490, email at dsrgvsu@gvsu.edu, or visit our office at 215 The Blue Connection.

Grand Valley has contracted with Google to provide Gmail along with Google Apps for Education and Calendar. Gmail is free and required for all students.
