Schools may bring as many teams as they would like, that may earn medals, but may only receive a trophy for the highest scoring team.

Each **team** will prepare; bring all the supplies for, including enough copies of the test; proctor; and grade one event. Please send in a digital copy of the test and answer key four days prior to competition.

We will follow the Michigan and National schedule.

After the tournament, each team will receive all their students' tests and a digital copy of all tests and answer keys and raw scores.

**Bonus:** Although the Eastside Invitational is not being held on the same date this year, we have still agreed to exchange tests afterward so all teams from both invites will receive all tests and answer keys from both invites.

All teams participating in an invitational tournament need to register with their state Science Olympiad. The membership fee must be paid prior to participating in any competition. If schools would like to bring more than one team, each team must be registered with their state office.

As the invitational nears, updated information will be posted on <http://haslettsciolyinvitational.weebly.com>
