

Modified Student Summer Scholar Program Application Examples

A4. Commitment to Project

Example

4. Commitment to Project

a. **Faculty obligations:** As a visiting professor at GVSU, I (██████) have no summer classes scheduled and can dedicate my time to mentoring student research and attending S3 ██████████. ██████████'s and ██████████'s research is complementary- ██████████ will examine ancient fossils near Marquette, while ██████████ will examine environments near Marquette. Their field and laboratory methods are nearly identical, and we will all be visiting the same UP locations. I have already started weekly meetings with ██████████ and ██████████ together, balancing their introduction research with my current course load.

b. **Student obligations:** I (████████) will be able to dedicate copious amounts of time to this research project. I am not taking any summer courses, nor will I be working any additional jobs for this period of time.
