

## General Use and Procedures for PS4 Use

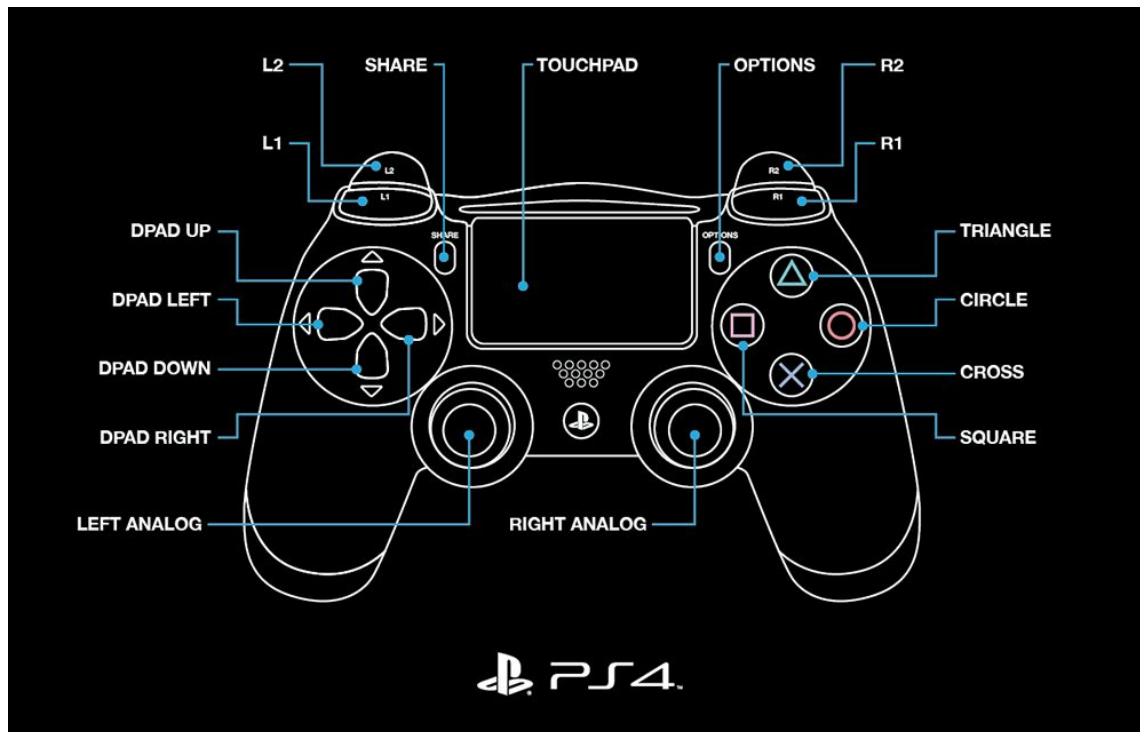

### Start of Play Session

To use a PS4 in the Language Resource Center, check in at the front Desk. The staff will trade you both a PS4 controller and a copy of *Assassin's Creed Unity* for your ID. You will be able to use a PS4 for an hour at a time to accommodate more people.

Once you have your game and controller, choose a workstation. There are/will be three workstations: One in each of the labs.. The workstations are the TVs. The PS4 in Lab A is located on the bottom of the wood refreshment desk. The PS4 in Lab C is located on the ground next to the TV and by the first group of computers.

If you are unfamiliar with the controller, here are the labels for each button:

To use the PS4, connect the controller via the following:

1. Press the PS button on the controller, the button between the two analog-sticks.

2. Log into the PS4 following the Log-in procedure below.
3. If the controller does not work, request a PS4 Controller Cord (USB to micro USB) from the front desk. Connect the PS4 and the Controller, then follow steps 1-2 above.

## Log Into the PS4

If you have not created a PlayStation Network account, you will want to do so on a computer. To create a PSN account, do the following:

1. Go to <https://www.playstation.com/en-us/>
2. Click on Sign-In.
3. Click on "Create New Account".
4. Follow the on-screen instructions. We recommend not selecting the checkboxes about special offers and the sharing of your information.
5. You do not need PlayStation Network Plus, so do not input a credit card or agree to pay for anything.

If/Once you have an account, logging into the PS4 is next.

If you have used this PS4 before, the process is as follows:

1. Find the name you used for your account. Select it.
2. Enter your passcode. This will take you to the main screen.

If you have not used this PS4 before:

1. Select "New User"
2. Select "Create New User"
3. Follow the prompts to sign into your PSN account. You will then be on the main screen.

If you haven't used this PS4 before, there are some security procedures to do before you can play.

1. Press up on the left stick to see the other menu options.
2. Navigate to Settings -> User -> Login Settings -> Passcode Management

3. Select Create/Change Passcode.
4. Follow the prompts to create your passcode.

### **Loading Save Data onto the PS4**

If you are wanting to continue your progress from a previous session (and have saved your data to a USB device), the process to access the data is:

1. Make sure the USB device is connected.
2. Navigate to main menu.
3. Press up on the left stick to see the other menu options.
4. Navigate to Settings -> Application Saved Data -> Saved Data on USB Storage Device.
5. Select "Copy to System Storage"
6. Select the data you wish to copy from the USB.
7. Follow the remaining prompts.

### **Starting the Game**

Insert the disc from the game case into the PS4. The slot is next to the USB ports, and the image on the disc should face towards you. After the disc has been read, navigate the main screen to find *Assassin's Creed Unity*. Click X, and the game will start.

### **End of Play Session**

At the end of your hour, you will be notified that your time is up, and you need to finish your session. If there is no one else has signed up to play, you may sign up again and keep using the PS4, but we recommend limiting your time to focus on your other studies.

### **Save Your Data to USB**

If you want to have your progress in the game saved, you'll need a USB flash drive. To save your data to the flash drive, do the following:

1. Make sure the flash drive is inserted into one of the USB slots on the PS4.
2. Press the PS button to get to the main screen.
3. Press up on the left stick to see the other menu options.
4. Navigate over to Settings -> Application Saved Data -> Saved Data in System Storage -> Copy to USB Storage Device.
5. Choose your game data and follow the on-screen prompts. You want to copy all files.

## **Eject Game Disc**

After saving your data, eject the disc from the PS4. To do this, do the following:

1. Press PS button to get to the main PS4 menu.
2. Navigate to *Assassin's Creed Unity*. Press the Options button.
3. Select Eject Disc, and collect disc from PS4.

## **Log Off PS4**

After you have saved your data and ejected the disc, log off the PS4:

1. Press and Hold the PS button until a menu appears.
2. Select Sign Off of PS4.

Unplug the controller and bring all the materials back to the desk. Your ID will be returned and you are free to go.
