ORIGINAL MEDICARE – PARTS A & B

WHAT IS MEDICARE?

- Federal Health Insurance available to (3) groups of people*:
 - Individuals over the age of 65
 - Individuals under the age of 65 with a qualifying disability
 - Individuals who have been diagnosed with End-Stage Renal Disease (ESRD) or Lou Gehrig's Disease (ALS)
- Consists of:
 - Medicare Part A: **Hospital** Insurance
 - Medicare Part B: **Medical** Insurance
- Medicare is NOT:
 - Free
 - A Family Health Plan
 - Social Security Benefits – Although Medicare may integrate with the Social Security Administration, it is not a financial retirement benefit
 - Medicaid – Provides low-cost healthcare coverage to individuals with limited income and resources. Medicare and Medicaid may work together = “Dual Eligible”

*Must be a U.S. citizen and/or legal resident. Legal residents must live in the US for at least 5 years in a row, including the 5 years just before applying for Medicare.

Premiums are based on MAGI from 2 years prior – in 2025, **Medicare will be referencing your income from 2023**

Higher earners will pay **Part B IRMAA** in addition to the standard premium, and a **Part D IRMAA** in addition to the monthly Part D Prescription Drug plan premium. Redetermination of these premium amounts is adjusted by the government every calendar year (or by completing form SSA-44)

ORIGINAL MEDICARE – PART B

2025 MEDICARE PART B PREMIUMS

WHAT IS IRMAA?

IRMAA stands for
Income-Related Monthly
Adjustment Amount

Medicare determines what your Part B & D premiums will be, based on your Modified Adjusted Gross Income (MAGI) from 2 years prior. Depending on what your taxable income was from that year, you may be charged a “surcharge” or elevated premium until your income is reduced.

If you had, or will be having a major life-changing event (like retirement), resulting in a reduction in income, you may use form SSA-44 to request a redetermination of Medicare Part B & D premiums.

Form SSA-44 (12-2021) Page 2 of 8

STEP 1: Type of Life-Changing Event
Check ONE life-changing event and fill in the date that the event occurred (mm/dd/yyyy). If you had more than one life-changing event, please call Social Security at 1-800-772-1213 (TTY 1-800-325-0778).

ORIGINAL MEDICARE – DO I NEED IT?

AM I REQUIRED TO ENROLL IN MEDICARE IF I CONTINUE WORKING BEYOND AGE 65?

You may choose to delay enrollment in Medicare A and/or B at age 65 without penalty if:

- You (or your spouse) are actively working, covered under an employer-sponsored benefits plan, and that employer has more than 20 employees.
- You (or your spouse) are disabled, covered under an employer-sponsored benefits plan, and that employer has more than 100 employees.
- You may choose to enroll in Medicare Part A ONLY at age 65, as most people will qualify for premium-free Part A (\$0).
 - However, this may affect eligibility to contribute into a Health Savings Account (H.S.A.), if you are the H.S.A. account holder.
- You may enroll in Medicare A and/or B (later on), based on your retirement date and/or loss of employer-sponsored coverage.

You are strongly encouraged to enroll in Medicare A & B if:

- You (or your spouse) are actively working, covered under an employer-sponsored benefits plan, and that employer has less than 20 employees.
- You (or your spouse) are disabled, covered under an employer-sponsored benefits plan, and that employer has less than 100 employees.
- You are currently covered under COBRA and will be turning 65. Once you turn 65, COBRA will revert to secondary insurance.
- You do not have access to creditable employer-sponsored coverage (*for example, you have individual health coverage through the Health Insurance Marketplace, Christian Health-Sharing plans, Medicaid*).
- You are eligible for retiree coverage (*through the State of Michigan, Public School System, or from a large employer*).

ORIGINAL MEDICARE – DO I NEED IT?

HOW MEDICARE WORKS WITH HEALTH SAVINGS ACCOUNTS

Enrolling in Medicare Part A = Ineligible to make H.S.A. contributions

- In order to contribute funds into an H.S.A. (as defined by the IRS), you must solely be insured under a High Deductible Health Plan (HDHP)
- Medicare Part A is not a High Deductible Health Plan (HDHP)

Can I keep funding my H.S.A.?

- **YES** - If you are actively employed by an employer >20 employees, enrolled in a HDHP, and decline to enroll in both Medicare Parts A & B at age 65.
 - *You may still contribute up to the family maximum per year if you (as the policyholder) are carrying your spouse under your HDHP (as your dependent), and your spouse has Medicare Part A. This is because the H.S.A. account is in YOUR name, not your spouse's.*
- **NO** - If you choose to enroll in Medicare, you may use the existing funds in your H.S.A. but may not contribute any additional tax-free funds (from any source).

What is the 6-Month Rule?

- If you originally declined to enroll in Medicare at age 65 (because you worked for a large employer and wanted to continue funding your H.S.A.), and are enrolling at a later date, you must cease H.S.A. contributions 6-months in advance of applying for Medicare.
- The 6-month rule does not apply to individuals electing Medicare right at age 65.

*Special Note about H.S.A.'s and Social Security:

If you are collecting Social Security or disability benefits, you are required to be enrolled in **Medicare Part A = No H.S.A. contributions** into an account held in your name.

ENROLLMENT PERIODS

WHEN SHOULD I SIGN UP?

ENROLLMENT PERIODS

WHEN CAN I SIGN UP?

AUTOMATIC ENROLLMENT

Some people will be **automatically** enrolled in Medicare, without having to file an application.

- If you are already collecting Social Security Retirement or RRB benefits, prior to turning 65 – you will be automatically enrolled the 1st of the month in which your birthday falls.
- If you have been collecting Social Security Disability (SSDI) benefits for the last 24 months – you will be automatically enrolled in the 25th month of disability.

If you have been automatically enrolled, and would like to disenroll, you will need to submit a disenrollment form (form CMS-1763), or sign/send back your Medicare card.

SPECIAL ENROLLMENT PERIOD (SEP)

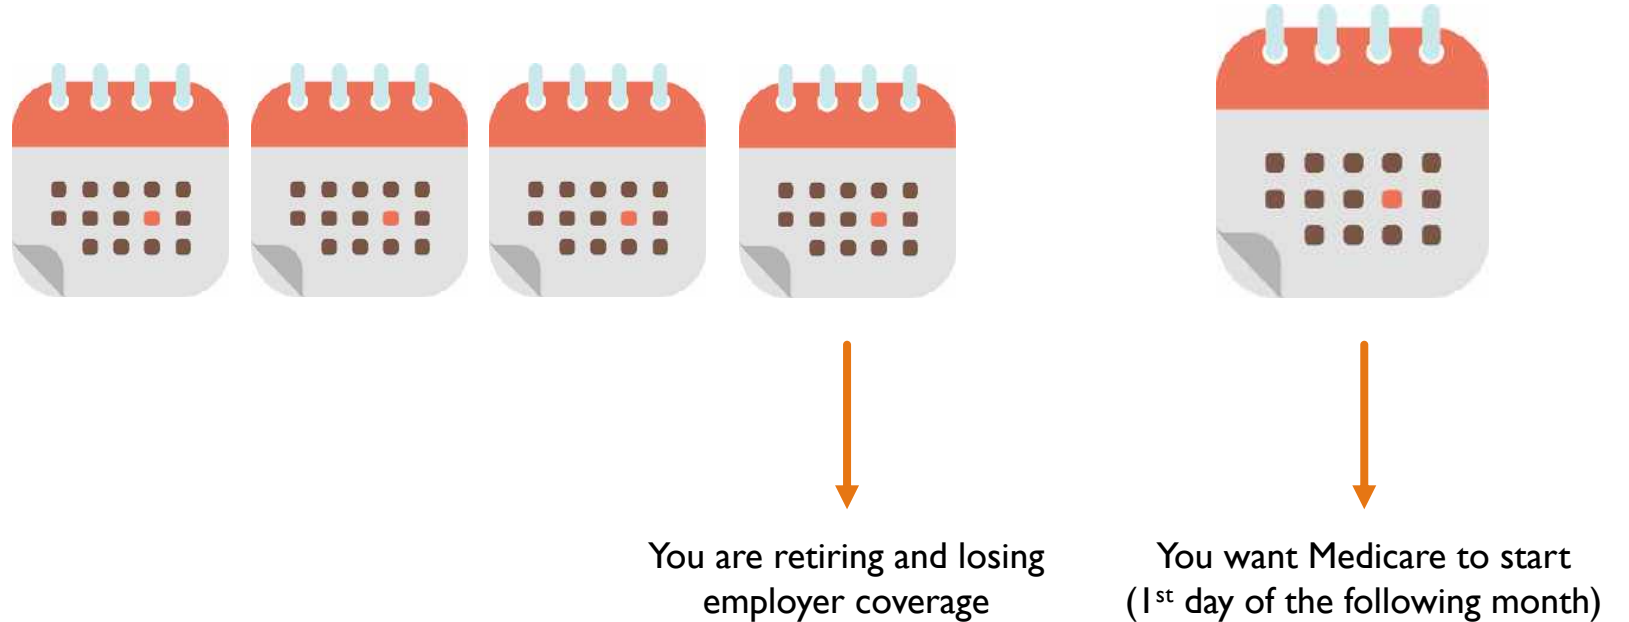

Some people choose to delay enrollment in Medicare at age 65 (IEP) because they are still working, and/or have access to employer-sponsored benefits (**over 20 employees**), and want to keep that coverage.

When retirement or separation of employment occurs (resulting in loss of coverage), you will have an **8-month** period of time to enroll in Medicare.

Your Medicare coverage will begin the month after you lose your employer coverage and/or apply in that 8-month window.

You will not experience a late enrollment penalty as long as you can prove that you maintained continuous employer coverage (form CMS-L564).

Example of a person retiring at age 68

ENROLLMENT PERIODS

WHEN CAN I SIGN UP?

GENERAL ENROLLMENT PERIOD (GEP)

If you failed to enroll surrounding your 65th birthday (IEP), or within 8 months of losing employer coverage (SEP), you will have one final opportunity to enroll in Medicare.

The General Enrollment Period occurs between **January 1 – March 31**

Coverage will begin on the 1st of the following month, and you may be assessed a Late Enrollment Penalty. This is an additional 10% penalty for each 12-month period that you could have enrolled in Medicare, but didn't.

Penalties may apply!

January 1 – March 31

Coverage will begin the
1st of the following
month

MEDICARE PART D

PRESCRIPTION COVERAGE

PRESCRIPTION COVERAGE – PART D

3 STAGES OF COVERAGE

DEDUCTIBLE PHASE

You may pay 100% of your drug costs until the annual deductible of **\$590** is met.

Once the annual deductible is met, you will move on to the **INITIAL COVERAGE STAGE**

The annual deductible may be waived when filling low-cost, generic drugs.

The deductible may apply to more costly, brand-name drugs.

Implementation of the deductible is based on the individual terms of the Part D plan you enroll in.

INITIAL PHASE

You may be charged copays based on drug “tiers,” or a percentage of the cost of the drug.

EXAMPLE

Tier 1: \$0 copay

Tier 2: \$5 copay

Tier 3: 25% copay

Tier 4: 48% copay

Specialty: 33% copay

When the total of what you pay + what your Part D plan pays + manufacturer discounts = **\$2,000** on covered drugs (called TROOP), you will move into the **CATASTROPHIC PHASE**

CATASTROPHIC PHASE

\$2,000

Annual Spending Cap

During this phase, your Part D prescription drug expenses will be covered in full for the remainder of the year.

PRESCRIPTION COVERAGE – PART D

SENIOR SAVINGS MODEL FOR DIABETICS

The Part D Senior Savings Model allows participating Part D prescription drug plans to offer a broad set of formulary insulins at a maximum **\$35.00** copayment per 30-day supply, throughout the deductible, initial coverage, and coverage gap phases of their Part D drug coverage.

Some of the more-commonly prescribed insulin drugs that are included are:

- Humalog
- Novolog
- Lantus
- Toujeo
- Tresiba
- Levemir
- Soliqua

PRESCRIPTION COVERAGE – PART D

WHAT IS THE LATE ENROLLMENT PENALTY?

You may be subject to paying a late enrollment penalty (LEP) if you do not maintain **creditable prescription drug coverage** after the age of 65. In 2025, the Part D late enrollment penalty (LEP) is 1% of the national base beneficiary premium (\$36.78) for each month a person was eligible for Medicare but didn't enroll. This amount is added to the monthly Part D premium and follows you for life.

The LEP is intended to encourage Medicare beneficiaries to maintain adequate (creditable) drug coverage.

How to avoid the penalty:

- Check with your employer to verify that the prescription coverage under your employee benefits plan is creditable (*as good as, or better than Medicare*)
 - If you do not have access to an employer plan with creditable prescription drug coverage, or the employer plan does not include creditable prescription drug coverage, you are strongly encouraged to enroll in a Medicare Part D plan at age 65
 - If you do have access to an employer plan with creditable prescription drug coverage, you are strongly encouraged to enroll in a Medicare Part D plan within 63-days of losing employer coverage

EXAMPLE

At the time you turned 65 and/or retired, you were not taking any medications and decided not to enroll in a Part D plan for (perhaps) 3 years in a row.

After 36 months of not having creditable prescription coverage, you then decide to enroll in a Part D plan.

Your penalty will be 36% of \$36.78
= \$12.49 per month
for the rest of your lifetime
