

Federal Agency Guidance on the Reopening of Government Agencies

The below content was adapted from material developed and posted by the University of California at Berkeley

On January 25, 2019, the President [signed into law H.J. Res. 28](#), the “Further Additional Continuing Appropriations Act, 2019,” which includes a short-term continuing resolution that provides fiscal year 2019 appropriations through February 15, 2019, for continuing projects and activities of the Federal Government included in the remaining seven appropriations bills.

The following links point to materials and notices provided by the Federal government for and from the OMB and various agencies from which GVSU has funding for sponsored projects. Some agencies—but not all—have provided updates and information related to the reopening of their operations. Where such information is available, we have provided it here. For agencies that have not provided updates, we have provided the information available on operational plans posted prior to or during the shutdown.

Office of Management and Budget
