

Is Adobe Acrobat needed?

When considering your purchase options for a new machine these tips may help you decide if the additional cost of Adobe Acrobat is needed.

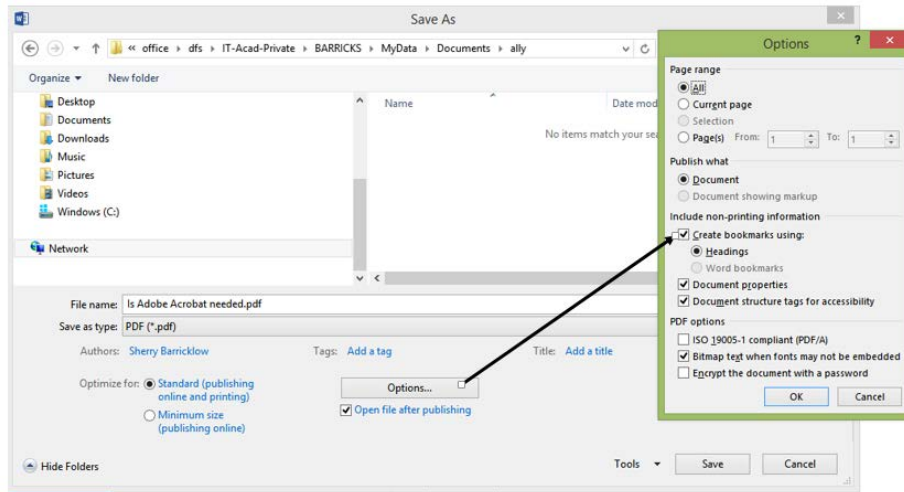

Included Free with all GVSU machines:

With Acrobat Reader DC you can open, read and print PDFs, and fill out PDF forms.

With MS Office you are able to convert any document from Word, Excel, PowerPoint into a PDF.

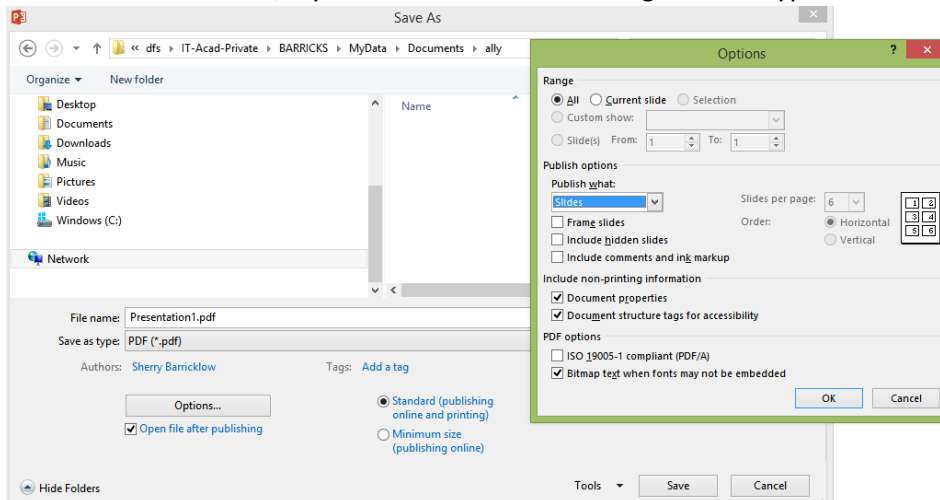

With MS Word you are also able to convert any unprotected PDF document back into Word.

In Word select Save As and choose PDF from Save as type. Note: Styles and ADA formatting with the free features in Word are retained.

Word also allows you to convert a PDF back into a word document. Click File, Open, go to the location

the PDF file is saved to, if you do not see the file change the file type to all files

In Powerpoint select Save As and Choose PDF from Save as type. You are able to save your PPT in various views including Slides, Handout, Notes and Outline view

In Excel select Save As and Choose PDF from Save as type. You are able to save your XLSX Entire workbook, just the active sheet(s) or a print area.
