The Society for Human Resource Management

Congratulations to the SHRM (Society for Human Resource Management) Student Chapter of the Seidman College at Grand Valley State University for earning a Superior Merit Award for the 2024-25 academic year.

This award encourages the development of more effective student chapters and distinguishes outstanding activities and projects. Chapters are recognized based on operations, chapter programming and professional development of members, support of the human resource profession, and SHRM engagement.

The Seidman College human resources management curriculum is also aligned with SHRM competencies embodied in their SHRM-CP and SHRM-SCP certifications. This ensures that the courses Human Resource Management majors complete build the skills and abilities sought by employers.

All human resource management majors are strongly encouraged to join the SHRM student chapter. Members are given networking opportunities, interacting with guest speakers, mentoring, job shadowing, and career information. Most importantly, student members can include their student chapter learning activities when presenting credentials to prospective employers.

The Mentorship Program in Seidman

We believe that success requires collaboration, perspective, and networking. These skills become even more valuable as you continue, both professionally and personally. At Seidman, we recognize this and have developed a groundbreaking mentorship program that fosters learning agility for students and mentors.

Freshmen and Sophomores will be paired with Juniors and Seniors. The goal is for the mentors to introduce our new students to Laker Life, find common interests, and help them navigate through their college journey.

Juniors and Seniors have the option to be paired up with professional mentors. Having a professional business mentor allows you to grasp a better idea of your future career, gain a professional prospective, and improve your networking skills.

The program runs during the school year, and the only requirement is to check in with your mentee, virtually, by phone, or live, twice per month. Most mentors spend about 1 hour per month on the program.

Students in the mentorship program report higher levels of academic success and more satisfaction with their college experience compared to their peers. Some other benefits you'll receive include:

- › Thoughtful pairing to a mentor partner
- › Options to communicate via text, phone, video, or live
- › Support via the SCB Mentorship office
- › Invitations to SBC Mentorship networking and community events
- › Satisfaction of giving back to GV and making a difference in a student's life
- › Opportunities to network and learn with the next generation of Laker Graduates
