The Geography and Sustainable Planning Department offers concentrations in *Environment and Global Geography, Urban and Regional Planning,* and *Geospatial Technology*.

Students who started at GVSU prior to Fall 2017 and would like to pursue one of the Geography Emphasis areas will need to speak with Records Office (150 STU) to update their catalog year. It is <u>VERY</u> important that you speak with your advisor in the CLAS Academic Advising Center first to be sure that updating your catalog year will not have a negative impact on your academic plan.

There are also optional certificates in *Urban and Regional Planning* and *Geographic Information Systems (GIS) technology* that students may elect to pursue in addition to their respective major. Minors are also available in *Urban and Regional Planning* and *Geographical Techniques* are available for students that are not majoring in Geography. For information about certificates and minors visit the Geography and Sustainable Planning website: <a href="http://www.gvsu.edu/geography">http://www.gvsu.edu/geography</a>.
