IT Team Member Highlight Adrian Mora, Information Security Analyst

As an Information Security Analyst with GVSU's Information Security team, Adrian specializes in Identity and Access Management. Currently, he manages [LastPass](#) and [Okta](#) (coming soon), as well as works on cloud security. When asked what Adrian finds to be most rewarding about his work, he shared, "One of the most rewarding aspects of my job is the knowledge that my work is helping to protect our organization's critical information and assets. I take great satisfaction in knowing that I am playing a critical role in safeguarding sensitive data and ensuring the security of the university's infrastructure and users. Additionally, I enjoy the constantly evolving nature of the field, as it presents new and challenging problems to solve on a regular basis."

Adrian was born and raised in Mexico and speaks Spanish as his first language. In addition to his Associate's from Grand Rapids Community College, he has a Bachelor's in Information Systems from GVSU and a Master's in Computer Information Systems/Cyber Security from GVSU. When not at work, Adrian enjoys flying his drone and working on his home lab and network to understand innovative technologies.
