5. Update on costs of using IDEA for GVSU community (C. Rener)
400 institutions currently using IDEA. Cost is $41,547 per semester. Rough estimate based on the number of classes/students from our 2012 fall semester. Darren raised the question that does every single course need to be evaluated every single semester? This could be a factor in the IDEA costs. The committee will go ahead and send are two recommendations (Blackboard and Enterprise) to ECS/UCS. Scott Grissim raised the idea on whether the short form questions from IDEA could be used as a starting point for developing questions if we use Blackboard. A question of copyright would need to be investigated. Several committee members stated that it is difficult to place a value of how much money our administrative assistants (COTs) are currently spending on typing up the evaluation comments.
   A. Revisit the question…does every single course (and instructor) need to be evaluated
every single semester?
   B. How do we increase student response rates?
   C. Question development? Number of questions? Specific consistent questions asked
by each department?
   D. The committee will need to disseminate best practices for interpretations of tools/data
and how that information should be used for tenure and promotion and annual review
   E. Peer evaluations of faculty members for personnel. Currently, practices are
inconsistent between units/departments.
