INTRODUCING THE GVSU VETERAN PROMISE

If you have committed to serving our country for at least two years and are graduating from a Michigan high school this year, we offer pre-approved admission to Grand Valley State University deferred until you're ready. Your willingness to make a commitment to your country means something, and the least we can do is to eliminate the worry about being accepted to college. We call it the GVSU Veteran Promise and we're the first and only university in the country to reward your military service this way.

No obligation, no cost

There is no obligation or cost to participate and no pre-enrollment necessary. Just sign up and your admission to Grand Valley is granted and reserved once you're ready to begin.

Eligibility

All graduating Michigan high school seniors who have signed enlistment papers to serve in the U.S. military are reserved a spot upon exit of their service or to begin online in their active-duty years.

Why Grand Valley?

Grand Valley has a reputation for academic excellence, first-rate faculty, and a great return on your investment. Our focus on hands-on learning will complement the types of learning and experiences you'll have in the service and being able to use your military educational benefits will add even greater value. Your military experience and leadership skills will be valued, and our veteran-specific resources provide an integrated support system that will guide you to graduation and beyond.
