

STRUCTURED LEARNING ASSISTANCE

Structured Learning Assistance (SLA) is a form of Supplemental Instruction available in some historically challenging courses. With SLA students attend a **required** additional weekly session led by a peer facilitator who reviews course content, clarifies lecture points, and provides study, test-taking, and reading strategies.

SLA focuses on collaboration and active learning strategies to help students practice course content in a fun, low-stakes environment.

Benefits of SLA

- Helps create community and belonging
- Higher test and final course grades
- A deeper understanding of course content
- Learn positive study habits and reading skills

Registering for SLA

Courses are listed on the reverse side (flip page) and available on a first-come, first-served basis.

Students must enroll in SLA! They cannot attend SLA sessions that are not tied to their courses.
