

GVSU Supported Technologies for Teaching and Learning

Blackboard

GVSU's enterprise learning management system provides content, communication, assessment, grading, and collaboration capabilities.

Ally automatically scans files uploaded into Blackboard for issues. Ally also creates alternative formats for all files uploaded by the instructor

Zoom supports live videoconferencing for class sessions, guest speakers, office hours, tutoring, and more!

Panopto provides lecture capture, video creation, interactive quizzing, and closed-captioning capabilities. It also provides the ability to manage video-based assignments.

Hypothes.is is an online social annotation tool. It allows users to annotate openly on websites, blogs, online journals, and news articles.

While Panopto is recommended, Camtasia Studio offers screen recording software with advanced editing. This software can be purchased through department funds.

padlet

This application provides interactive multimedia bulletin boards, allowing students to create and share learning.

Integrated into Blackboard, SafeAssign checks papers for originality and plagiarism.

GVSU has G Suite for collaboration and content creation with docs, sheets, slides, sites and forms. Notebook LM and Gemini are also included.

GVSU provides Microsoft Office (Word, PowerPoint, Excel, Bookings, Teams, and OneDrive) to faculty, staff, and students.

Blackboard also provides a survey capability, however, Qualtrics provides a more robust set of surveying features, and is available to all faculty and staff.

GVSU has Adobe Express and Acrobat Pro. <https://www.adobe.com> Adobe Express web-based design tool used to create high-quality graphics and web pages. Acrobat Pro is a tool for creating, editing, and managing PDF files. It allows you to add interactivity, secure content, and ensure accessibility.

eLearning Technologies provides support for a variety of enterprise technologies for teaching.
