The Standard Deviation (Std Dev) is a measure of dispersion around the mean. In a normal distribution, 68% of cases fall within one Std Dev of the mean, and 95% of cases fall within 2 Std Deviations. The Standard Error about the Mean (SE Mean) is a measure of how much the value of the mean (Average) varies from sample to sample.

WRITTEN COMMENTS – **VERBATIM**

Comment on what the instructor does well

- Explain the material
- He clearly knows a great deal about the course information
- Good at gathering information and presenting it
- None
- Good jokes, more please
- Understanding of material
- Patient & understanding.
- Liked due date of const. didn't interfere w/finals. Make student submit 1 page paper for debate day of – their arguments are never factual.
- I believe that he works w/students very well, like he gave a lot of second chances this year which I hear he usually doesn't do.
- I think Professor Constantelos was a very intelligent, compassionate teacher. I would definitely recommend him to other students.
- The instructor is well-spoken and knowledgeable and is genuinely willing to help.

Comment on what the instructor could do differently/better

- I wouldn't change anything.
- Slides on presentation with more info.
- I never know what is important to take notes on because he just talks & doesn't give us enough time to write down what he says or read the slides
- Consistent breaks
- N/A
- Little more organized
- He gave a lot of extra reading, I'm a pls major so they were interesting to me but for this to be a Gen Ed course, it was a lot. (2nd for course level)
- I would recommend a little more structure. I respect the philosophy of fostering critical thinking and self determination but a little more structure could make this process more efficient. I would rather his lectures be more pertinent to the specific literature he assigns each week. Although they were always informative, they were not always directly related.

Additional comments

- I learned a lot in the class, it was good.
- Great teacher
- If there was a better format for taking notes I think I would perform better because he includes part of class discussion on exams.
- None
- I think the reading expected was a little heavy for a 100 level class
- As a gen-ed class at the 100 level, it is relatively challenging. I have a personal interest in the material which helps, but I would assume it's difficult for those who are simply fulfilling a requirement.
