

Additional Knots for Climbers Details

Topics:

1. Knots for Outdoor Climbing
2. Application of Outdoor Knots

Objectives:

Upon completion, students in this workshop should be able to:

1. Tie up to 8 knots useful in outdoor climbing
2. Provide at least 1 example for when each knot is applicable
3. Recognize when each knot has been tied correctly (or incorrectly)

Difficulty/Skill Level: Novice/ No Experience

Duration: ~1 hour

Additional Notes:

While the instructor may review common textile goods used for tying knots in climbing, a more thorough discussion on ropes, cord, webbing & slings will take place in the Gear + LNT workshop

Knot tying is a very perishable skill. Practice them regularly, especially prior to a trip when needing them is expected.
