

Medical Dosimetry Outcomes

	2016	2017	2018	2019	2020	Five Year Average
Graduation Rates	12/12 = 100%	10/10 = 100%				
MDCB Pass Rates	9/11 = 82%	8/11 = 73%				
Job Placement Rates	11/12 = 92%	9/9 = 100%				

**** GVSU Dosimetry Program started in August 2015 with the first cohort graduating August 2016. This data will be updated annually after graduation dates. ****

- Credentialing examination, job placement, and program completion data must be reported annually to the JRCERT. Graduate and employer satisfaction data must be collected as part of the program's assessment process.
- Credentialing examination pass rate is defined as the number of graduates who pass, on first attempt, the Medical Dosimetrist Certification Board (MDCB) certification examination or an unrestricted state licensing examination compared with the number of graduates who take the examination within twelve months of graduation.
- Job placement rate is defined as the number of graduates employed in medical dosimetry compared to the number of graduates actively seeking employment in medical dosimetry. The JRCERT has defined not actively seeking employment as: 1) graduate fails to communicate with program officials regarding employment status after multiple attempts, 2) graduate is unwilling to seek employment that requires relocation, 3) graduate is unwilling to accept employment due to salary or hours, 4) graduate is on active military duty, and/or 5) graduate is continuing education.
- Program completion rate is defined as the number of students who complete the program within 150% of the stated program length. The program must establish a benchmark for its program completion rate. The program specifies the entry point (e.g., required orientation date, final drop/add date, final date to drop with 100% tuition refund, official class roster date, etc.) used in calculating program's completion rate.
- Graduate and employer satisfaction may be measured through a variety of methods. The methods and timeframes for collection of the graduate and employer satisfaction data are the prerogative of the program.
