Important Questions	Answers	Why this Matters
What is the overall deductible?	For network providers $250 person / $500 family For non-network providers $500 person / $1,000 family Network deductible amounts apply to non-network deductible amounts, and non-network deductible amounts apply to network deductible amounts. Amounts you pay toward the deductible do not count toward any co-insurance maximums.	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your deductible?	Yes, the network benefits deductible doesn't apply to preventive care and services subject to flat dollar co-pays.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	For network providers $8,700 person / $17,400 family For non-network providers $8,700 person / $17,400 family Your plan also has a co-insurance maximum. For network providers $1,000 person / $2,000 family For non-network providers $2,500 person / $5,000 family The co-insurance maximum limits the total amount of co-insurance you will pay for certain covered services during a coverage period. The co-insurance maximum is included in the out-of-pocket limit. The out-of-pocket limit for each benefit level is calculated separately.	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums, balance-billed charges, health care this plan doesn't cover, services that exceed an annual day/visit limit, and prior certification penalties.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. See PriorityHealth.com or call 1-800-956-1954 for a list of network providers.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without a referral.

All co-payment and co-insurance costs shown in this chart are after your deductible has been met, if a deductible applies.
