BIKE COMMUTING TIPS

• Arrange for secure bike parking. Contact your employer about parking or carry a good lock.
• Choose your route. Study maps and base your route on traffic at the time of day you’ll be riding.
• Drive your route first. Look at the shoulder construction, street surface, and street conditions of your route.
• Be sure to check the mechanical safety of your bike before riding.

TIPS TO AVOID TROUBLE

• Watch traffic behind and beside you. Learn to check over your shoulders without swerving. A mirror on your helmet or handlebar can be helpful.
• Watch driveways and cross-streets. Make eye contact with anyone who might cross your path. Don’t assume that others will see you or yield to your right of way.
• Everyone makes mistakes. Do your best to keep plenty of space around you.

RULES OF THE ROAD

RIGHT

BIKE LANES are parts of the road that are designated for bicycles. Treat them like all other lanes, and enter and exit them predictably.

SHARED LANE MARKINGS or "Sharrows" are used on roads too narrow for bike lanes. Use them by riding straight through the arrow and stay visible and alert.
