Limit: 30 (first come, first serve basis)

Cricket is the second largest team sport in the world played between two teams of 11 players each. Although the gameplay and the rules are different, the basic concept of cricket is very similar to baseball. Teams bat in successive innings and try to score runs, while the opposing team fields and attempts to bring an end to the batting team’s innings. After each team has batted an equal number of innings, the team with most runs wins.
