Many excellent local, regional, and national youth empowerment organizations exist in which youth with and without disabilities have opportunities to create positive change. Youth empowerment or youth guided organizations are instrumental in promoting youth leadership and self-advocacy skills around issues facing youth with disabilities.

Youth M.O.V.E. National, together with the U.S. government’s Substance Abuse and Mental Health Services Administration, defines the term as follows:

“Youth Guided means that young people have the right to be empowered, educated, and given a decision-making role in the care of their own lives as well as the policies and procedures governing care for all youth in the community, state and nation. This includes giving young people a sustainable voice and then listening to that voice... Youth guided organizations recognize that this process should be fun and worthwhile.”

I am Norm, Youth M.O.V.E. National, Kids As Self Advocates (KASA), and the National Youth Leadership Network (NYLN) are four youth empowerment organizations that are leading efforts to give youth with disabilities an equal and powerful voice. Their respective purposes and opportunities are presented on the following page.
