2017

MARCH 24 – 26th
Located in Mackinac Hall

ASA DataFest™ GVSU®

A nationally-coordinated undergraduate data analysis competition

Students spend a weekend working in small teams, around the clock, for 48 hours (5pm Friday - 5pm Sunday), to find insight and meaning in a large and messy dataset that is rich with information.

DataFest challenges and encourages students to find their own story to tell with the data – one they think will be meaningful to the data donor.

Participants must register as a team of 2-5 individuals.

Join in for an opportunity to win prizes, meet other students who share an interest in data, and learn more about data science/statistics.

Registration deadline:
Friday, February 17th
