Syllabus: H.O.T.T. (Hottest Online Technology Tools for the Classroom)

Course Description:
This online course will focus on the newest internet-based technology tools for educators. Designed for teachers searching for current, innovative ways to improve learning in the classroom. All assignments will ask you to apply the latest resources to your classroom to increase the motivation and learning of your students.

Credits: 3/75 SCECHs

Instructor: Tim Dimmick.

Instructional Method: Online

Dates: June 25th - August 2nd

Required Text: No text is required. Good Internet access, essential!

Prerequisite: Students should possess basic computer knowledge and have had some experience in surfing the Internet.

Course Objectives: The goal of this course is for you to discover and implement the latest internet tools to improve learning in your classroom.

The content of the course will be VERY diverse. You will be allowed to pick the tools that will best benefit your students and your classroom. Internet resources from the following categories (if they relate to your classroom) will be explored and applied:

> Mathematics
> Reading/Writing/Language Arts
> Science
> Social Studies
> Classroom Management
> Organization
> Screen Capture
> Resource Management
> Social Media
> Video
> Many more …

Evaluation Methods: There will be 10 assignments, worth 10 points each for a total of 100 points. A detailed rubric will be provided for all assignments. Late work will be reduced by 50%.
