

# Tuesday Table Talks

A conversation that feeds the soul and nourishes the growth of an interfaith community.

## November Tuesday Table Talk

### How can the human heart experience the Holy across cultures, faiths, and centuries?

We live together in common neighborhoods, break bread together, stand for social justice together, and pray together. Come and explore how we can learn to accept interfaith traditions and perspectives that enrich the world's understanding of the mystery of God.

Participants dine at round tables with persons from varying faith traditions. The evening includes inspired reflections by interfaith panelists followed by a conversation among dinner companions, and then a large group question and answer period.
