

# STUDY ABROAD: ENGINEERING

GVSU Engineering students have the opportunity to participate in study abroad programs to **Germany, Switzerland, Italy, South Korea, Turkey and more.** Students interested in studying abroad should speak with an academic advisor to discuss the possibilities for their program.

**Co-op Abroad** is available through domestic employers or in Germany. Completion of any co-op or study abroad program fulfills the general education Global Perspectives requirement (3 credits), and may fulfill up to 6 credits of the Issues requirement upon submission of the required reflection paper and form.

## Study abroad opportunities for GVSU Engineering students

### Co-op Abroad

#### *through Domestic Employer*

The School of Engineering has more than 50 West Michigan industry partners that have foreign operations. Talk to your current or future employer about the possibility of fulfilling one of your 3 co-op rotations at one of their foreign facilities.

### Germany Co-op

Students can complete their third co-op experience during the fall term in Germany. DHBW offers more than 25 industry partners in a variety of industries. In addition to the co-op experience, students will also take an engineering or business course.

### Switzerland

Electrical and Computer Engineering students can complete one semester of full-time study abroad in Switzerland. ZHAW is located in Winterthur, near Zurich, which is in close proximity to the tri-national border region of Germany and France.

### Italy

Students from around the U.S. and Italy are enrolled at John Cabot University (JCU) in Rome, Italy. Engineering students can participate in a summer program taking EGR 214, 215, and 226 courses. JCU offers a variety of student excursions and activities in Rome throughout the summer.

### South Korea

Engineering students can participate in a summer or semester program to Korea University in Seoul through the GVSU In South Korea program. Travel with a cohort of GVSU students on one of GVSU's most affordable programs.

### Turkey

Engineering students can complete one semester of full-time study abroad in Ankara, Turkey at Middle East Technical University's main campus. METU is Turkey's premier international research university with English as the medium of instruction.
