

## **Cancer Research – Paid Summer Internship Opportunity**

The Department of Cell & Molecular Biology is partnering with the Cancer Biology Program at Karmanos Cancer Institute/Wayne State University to offer CMB undergraduates a paid summer research opportunity. Students admitted to this program will work for 10-12 weeks with a research mentor at the Karmanos Cancer Institute to carry out a research project. Students will gain a comprehensive experience in cancer research that includes data analysis, interpretation, and a final presentation of their work at the Summer Research Poster Day with other summer research fellows. If you have a strong interest in cancer research and meet the eligibility criteria, you are encouraged to apply. Start dates will vary but students should plan to be available beginning May 1<sup>st</sup>. This is a full-time position. Students will receive a stipend for the internship. Housing is not provided. Karmanos Cancer Institute is located in Detroit, MI. Most summer fellows stay with family or friends in the metro Detroit area.

### **Eligibility:**

- Cell and Molecular Biology major
- Junior status and graduating Dec 2023 or later
- Overall minimum GPA 3.0
- Completed the following CMB required courses or equivalents by April:  
BIO120 or CMB155/156, CHM115/116, CHM241/242, CMB250, CMB405/406

### **How to apply:**

Due date is February 15, 2023.

E-mail the following materials directly to Dr. Dawn Clifford Hart at [hartdaw@gvsu.edu](mailto:hartdaw@gvsu.edu) as a **single pdf file:**

1. A current resume or CV that includes a cumulative GPA and relevant coursework or research experience
2. A copy of transcripts (unofficial from Banner)
3. A brief statement (1-2 paragraphs) that describes your academic and research goals, and how participation in a summer internship, specifically in cancer research, will help you achieve those goals.

### **Review process and timeline:**

Applications are due February 15, 2023. Applications will be reviewed internally with the option of interviews in February. The top applicants will be recommended to the review committee at Karmanos Cancer Institute.

### **Questions:**

Direct all questions to Dr. Dawn Clifford Hart at [hartdaw@gvsu.edu](mailto:hartdaw@gvsu.edu).
