FACULTY AND STAFF SALARY INFORMATION BOOK

November 14, 2024

Grand Valley State University Salary Information

This information includes all regular full-time and part-time faculty and staff on the payroll as of November 14, 2024. Faculty and staff with split appointments will have only the primary (more than 50%) title and department/unit listed.

The 2024 salary reflects the individual's projected total gross at the time the salary book is produced.

The gross pay for the calendar year may reflect pay for a partial year, (sabbatical, leave-of-absence, new hire), or pay in addition to base for overload, summer, overtime, or commission. Earnings information for years 1979-2021 are on file in the library and in Human Resources. The gross pay for the calendar year 2005 is not available. Also, with the transition to Workday, for 2023 data please refer to the 2023 Salary Book.

Salaries and hourly rates are set and begin at different times of the year for each of the constituency groups. This document is normally updated once a year (October).

Faculty

Proposed salary increases for the faculty are discussed annually with the Faculty Salary and Budget Committee. Individual faculty salaries are determined by the appointing dean in conjunction with the Provost/Vice President for Academic Affairs.

The salary listed is the actual salary based on the appointment (i.e., academic year, full time, part time, 12-month appointment) for faculty. If on a partial unpaid leave of absence or a reduced load the salary that is listed would be the salary that the faculty member is receiving for the year.

Appointments began August 6, 2024

Executive, Administrative & Professional Staff

If on a partial unpaid leave of absence or reduced appointment the salary that is listed would be the salary that the executive, administrative and professional staff member is receiving for the year.
