

Workers' Compensation Policy

Policy

The following worker's compensation policy and procedures covers all faculty and staff, as well as students, on the University payroll. It will cover medical expenses and lost wages, according to the laws of the State of Michigan, incurred by faculty and staff through injuries suffered while acting within the scope of their duties or performing services on behalf or under the direction of the University. Employees are urged to conduct their work using appropriate safety practices.

Procedure

- Faculty and Staff must report all serious injuries (accidents that require immediate medical attention) immediately but no later than by the end of the workday.
- All other accidents and injuries must be reported to your supervisor within 2 hours of their occurrence. If the exact time of occurrence cannot be determined, you must report the injury to your supervisor within 24 hours of the time that the symptoms of the injury appeared. The University cannot be held responsible for injuries that are not reported as required by University policy and bargaining agreements.
- In the event of a medical emergency, emergency medical personnel and/or Public Safety Officers will determine the most suitable treatment facility.
- Minor injuries (cuts, sprains, minor burns, and minor back injuries) can be treated at the Campus Health Center.
- If a faculty or staff member seeks medical attention from a Spectrum Health Occupational Services facility, Human Resources will need to authorize the treatment unless the employee was referred first by Campus Health.

Paperwork Requirements

In most cases, the injured faculty or staff member must complete a [Worker's Compensation Injury Report](#) within **24 hours of the accident**. This form can be found on the Health and Wellness website at www.gvsu.edu/healthandwellness under Benefits, Forms, and then Other Forms. You may also request that the form be mailed to you by calling the Human Resources Office at (616) 331-2215. All forms must be **completely** filled out.

- Upon receipt of report from the employee, his/her supervisor is responsible for making sure that the report is completed in a timely manner and turned in to the Human Resources Office.
- The Worker's Compensation Injury Report form that the staff member and his/her supervisor completes will be used to make sure they receive the proper medical treatment, wage loss compensation and benefits.

Health Center Locations

For a list of designated injury care centers, please visit Human Resource's website at www.gvsu.edu/hro/workerscompensation-28.htm or contact Human Resources at 331-2215.

Questions and Policy Interpretation

The Human Resources Office is responsible for implementing and coordinating the provisions of the Workers' Compensation Policy for the University. Questions may be directed to the Human Resources Office at (616) 331-2215.

If there are any conflicts between the University policy and provisions of the Michigan Workers' Disability Compensation Act, the provisions of the Michigan Workers' Disability Compensation Act will supersede, with the exception of situations where the University policy, handbooks or bargaining agreements provide benefits greater than the act. The Michigan Workers' Disability Compensation Act and their regulations will be used to resolve issues that arise.
