8. Click the SUBMIT button

9. If you have signature authority for the FOAP number entered in section 5 the check request will be processed by Accounts Payable in a timely manner. If the creator does not have signature authority for this FOAP number, then Accounts Payable will send the check request via the normal invoice approval process in Onbase. Once approved by the appropriate people in Onbase, the check request will be processed for payment as requested.

The ability to add supporting documentation to a check request is designed for two reasons. The first reason is the need for additional documents to be sent with the check like a letter, a form etc. The second reason is to provide the department with a way to store all of their information about the check request electronically.

Please note: If the Supporting Documentation has to be sent with the check you must use this process to save the attachment and check the box in section 3 Send attachments with check.

1. Log into On-Base. The second drop-down menu defaults to Document Retrieval. Use the drop-down arrow and select New Form.

10. Click on the Browse button to search your computer for the file you wish to attach.

11. Click the open button once the file is found.

12. Click the submit button. This will save the file as an attachment. This is a new document in Onbase called AP-CHECK REQUEST ATTACHMENTS. Later, if you look at the AP-CHECK REQUEST and open the form you will be able to click on VIEW ATTACHMENT and be able to see the documents that you added to the check request.

13. Click on Submit.

14. Once the form refreshes again, please click the drop down arrow and choose Document Retrieval. This closes the form. It has been sent to Accounting; currently the only way to close the form is to refresh the screen as directed.

15. If you have signature authority for the FOAP number entered in section 5 the check request will be processed by Accounts Payable in a timely manner. If the creator does not have signature authority for this FOAP number, then Accounts Payable will send the check request via the normal invoice approval process in Onbase. Once approved by the appropriate people in Onbase, the check request will be processed for payment as requested.
