*The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

****If you are pursuing a pre-professional area, please see our Behavioral Neuroscience Preprofessional guide and consult with an advisor.**¹CMB 155+156 can sub for BIO 120 for those students interested in research (with advisor approval).²This guide may not reflect all requirements for professional or graduate programs. You may need to take a different chemistry sequence based off of career interests. CHM 115+116 may be needed for professional or graduate programs (see Behavioral Neuroscience Preprofessional guide and consult and advisor).³Students must have a minimum of 120 credits to graduate with 58 of the 120 credits being from a senior level institution and the final 30 of the 120 credits completed at GVSU. Elective refers to any course that will help meet these requirements.⁴Students must complete two courses with an SWS attribute.⁵Students who self-place into WRT 120 should take this course in the fall semester and then take WRT 130 in the winter semester of their first year. Students who self-place into WRT 150 can take it in either semester during their first year. Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required in WRT 130 or 150 in order to satisfy the WRT requirement at GVSU.⁶Major Electives- you must select two major elective options from below. They must come from two different disciplines.**Degree Requirements**

Psychology students can pursue a Bachelor of Arts or Bachelor of Science degree. Students who wish to obtain a BA must fulfill 3rd semester proficiency in a foreign language (201 level). The BS requirements are incorporated into the major requirements and include STA 215, PSY 300, and PSY 400.

Declaring the Behavioral Neuroscience Major:

1. In myBanner, select "Student" > "Student Records" > "Change Major" > "Change Major 1/Program"
2. Choose "Behavioral Neuroscience-BS" from the drop-down box.
3. Click "Submit" and then "Change to New Program"
