*The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

¹If you plan to attend graduate or professional school you will want to complete the CHM 241/242 sequence.²Choose one of the following to complete the math cognate for the major: MTH 125: Survey of Calculus, MTH 201: Calculus, or STA 215: Introductory Applied Statistics.³Three courses must be chosen as your biology electives from the following three categories: Category 1: BIO 362 Fisheries Biology – OR – BIO 442 Fish Ecology; Category 2: BIO 232 Natural History of Invertebrates – OR – BIO 402 Aquatic Insects; Category 3: BIO 323 Aquatic and Wetlands Plants – OR – BIO 413 Freshwater Algae.

⁴ MTH 122/123 are prerequisites for PHY 220 and are not part of the Biology major. If a student chooses to take PHY 200, MTH 123 does not need to be completed. PHY 221 is not required but students planning to attend graduate school, professional school, or to pursue secondary teacher certification should complete the PHY 220/221 sequence. **To take the Math Proficiency Tests for MTH 122 and/or 123 online, visit this link: gvsu.edu/s/jk**

⁵ Elective refers to any course that will help you earn the required 120 credits to graduate.

⁶ Students must complete a total of two courses with an SWS attribute.
